Why are you invited?

As human being inhabitant of the Earth you are invited to act against the commodification and privatization of any life form.

All human beings do not have to beg for the recognition of their rights and dignity to the actual world rulers such as market and multinational companies.

The legitimate source of power belongs to human beings, peoples and humanity.

In the real democracy, power is spread everywhere and shared by anybody. In the real society of the rights and justice, every human being can inhabit any place of the world. There are no clandestines on earth, nor second or third class inhabitants.

L'Humanity needs to organize itself in order to exist as primary actor of self-regulation in the common living on a global scale and take on the responsibility for the lives of and on the Earth. We invite you to share the experiences of the wounded humanity and the new growing one relying on the solid utopian belief that it is possible to think of and give birth to a happier and just future for humanity, any man and woman and all living creatures.
The citizens and peoples of the Earth no longer participate in the decisions concerning the future of life and humanity. The little democracy attained until the 80s is only a memory. The future of the world is left to the arbitrariness and domination of an ever-shrinking circle of powerful social groups and private bearers fighting for their interests and enrichment ("America First", "Britain First", "China First," "Italy First"). The rights of the people and their communities are denied and humanity is crumbling to pieces.

In this year 2018 we celebrate the 70th anniversary of the Universal Declaration of Human Rights.
- The inhabitants of the Earth have to reclaim the strength of life, freedom and justice they have conquered through the rights so far.
- They have to equip themselves with the institutions and the means to rule their common future on a pluralistic, cooperative and participative basis starting from the “local” communities.

Security of existence and living well together are a collective and global affair.
For this purpose, a group of Europeans recently joined by other people coming from Europe and other countries like Latin America, North America, Africa and Asia, have launched the Action Program "Audacity in the name of humanity" in December 2017. Its objective is to raise awareness and mobilize citizens on the necessity and urgency to recognize humanity as a key player in the political, economic and social regulation worldwide. Only humanity, as such, can speak and act effectively to change the world in the interest and safeguard of the life on earth and all its inhabitants (including all living species).

In this context, the first action started is the Agora of the Inhabitants of the Earth (AHT).
The Agora of the Inhabitants of the Earth. Purpose

It is part of a long journey for the inhabitants of the Earth to create new stories for the present and the future. Steps in this direction are numerous and diverse around the world, proving the great variety of the individual and collective creativity. Our step is part of the paths of uprising, resistance and building alternatives to the dominant trends. We do not think that the priority is to address the actual world rulers asking them to be less predatory, less warlike, less exclusionary and more "human". Our bet is audacity.

We have in mind three audacities above all:

1. To ban war once and for all
2. To declare illegal the structural factors generating impoverishment and exclusion in the world
3. To eradicate the current predatory and speculative financial system

The Agora of the Inhabitants of the Earth: two major aims

- The first one: to contribute to the building process of humanity by examining and developing new horizons to change the future and, to this end, to approve a basic orientation document called "Chart of Humanity. Towards A Pact of Humanity". The Chart will recall the great values
declared and lived by humankind to this day and will express the visions and concrete utopias of the inhabitants of the Earth aiming to make them true. In particular, it will seek to mark one of the most decisive tracks to follow, namely the formation from below of a Security Council of the World Public Commons. At a time when a "common good" can become private, it is fundamental that public goods and public interests are safeguarded for life;

- The second one: to launch the initiative "Inhabitant of the Earth - World Identity Card" promoted by a network of Municipalities (or Local Communities) of the various continents that will deliver to their inhabitants a World Identity Card as "Inhabitant of the Earth". This Card will have no formal legal value and cannot be considered a new form of passport. The Card will have a symbolic, human and social value. Through this Card, Municipalities will recognize that all human beings, rooted in their innumerable places (oikos) on earth, are Inhabitants of the City-Earth and hence members of the same "human community" before and beyond being Chinese, Brazilian, Finnish, Greek, Tunisian, Kazakh, Japanese, Senegalese, Colombian, Hungarian, American, Russian, Argentine, English, French, Ugandan, Uzbek, Vietnamese, Australian, Romanian, German, Malian, Indian, Iranian, Quebecois ...
Program of the Agora (general scheme)

December 13th - Arrival of participants
H 18:00 Opening of the works. Festive event on the theme "The revolt of the inhabitants of the Earth. Beyond inequality and theft of life". This could give voice and visibility to artists and experiences regarded as “peripheral”.

December 14th - Day focused on the “Chart of Humanity. Towards a Pact of Humanity”
Morning: plenary session (selection of topics, reports by the groups that have already worked before the Agora, choice of the fields of analysis and action, formation of the groups that will work in depth)
Afternoon: parallel sessions within the groups that will work in-depth
Evening: areas dedicated to music, films and shows

December 15th
Morning: plenary session, closing of the work on the Chart of Humanity
Afternoon: focus on the initiative "Inhabitant of the Earth"
   First part plenary session
   Second part and parallel sessions
   Evening: free

December 16th
Morning: plenary session focused on the first tracks “Towards a pact of humanity”
   13.30 - 16.30
   Lunch and closing party of the Agora on the theme "Humanity under construction. The contract of fraternity".
Practical organizational aspects

Registration is free. A symbolic voluntary contribution (e.g. 10 euro) would be appreciated.

The place: Figueres is a charming small town in northern Catalonia, Spain, about 20 km from the border with France. It is easily reachable by TGV, European line Barcelona / Montpellier / Paris and by plane (airports of Girona and Perpignan). Figueres is also well known as the city where Salvador Dali was born and lived.
The works of the Agora will be held in the site "Chateau Sant Ferran" (http://www.castillosanfernando.org) where we can also organize the planned cultural and artistic activities (see program below). The working languages will be Spanish, Catalan, French and English.

Regarding the accommodation, which is at the expense of each participant, we are negotiating with the three most important hotels (three to four stars) located near the Chateau Sant Ferran, a price between 41 and 55 euro for room + breakfast / per person / per night. See the price list in Appendix 1. The faster and many will be the bookings, the more precise will be the information. No money will come back to our organization. In addition, each participant remains free to follow or not our suggestions.

Travel expenses are borne by each participant. We will try to create a solidarity fund and a sponsorship fund to partially support young activists from Africa, Latin America and Asia in cooperation with the members of the Agora Promoters Committee, which is listed below.
Composition of the Agora Promoters Committee (as of July 15, 2018)

Africa (Guido Barbera, Jean-Pierre Wauquier); Germany (Francesco Comina, Genny Losurdo); Argentina (Anibal Faccendini); Asia (Francine Mestrum, Siddartha, Fireflies); Belgium (Fabienne Minsart and Alain Adriaens), Brazil (Marcelo Barros, Marcos Arruda); Chile (Luis Infanti de la Mora); Spain (Charles Ruiz), Catalonia (Rinaldo Muscolino); France (Corinne Ducrey); International in general (Joao Caraça, Henri-Claude de Bettignies, Curzio Maltese, Rinaldo Muscolino, Riccardo Petrella, Roberto Savio, Patrick Viveret); Italy (Paola Libanti, Paolo Cacciari,); (Quebec (Raphael Canet, Carrminda Mac Lorin), Tunisia (Domenico Rizzuti);
